#	SUGGESTIONS PLEASE	DATE
1	It is difficult to discuss collaborative practice when there are tenders for different services which is actually a competitive process.	11/27/2019 1:35 AM

2	EMHSCA is the best way to keep up to date with the service landscape in the East but also more broadly- this is really important information for our workers. I hope that those attending are ensuring they update their orgs because often I've found staff didn't know about developments until I told them. Also a great way assess ways of supporting complex clients- my experience of this function was really positive and made me feel like I was contributing more broadly to service option awareness. For our most vulnerable clients this extremely important. can I suggest a project for this training?: It would be great to get workers to update Ask Izzy with their current service information and understand the process for updating listing (a notification is sent annually, which should be sent to a reception or longstanding group email). This would require a little pre planning to allow for information to be gathered/approved or over a couple sessions but it would be very helpful for the sector.	11/12/2019 6:15 AM

# Q4 How would you prefer the training to be provided?

#	OTHER (PLEASE SPECIFY)	DATE
1	Comment: Online would be great for access/flexibility and the number of ppl that can participate. Also, some gerneral information to help workers understand the service system and options available.	11/12/2019 6:15 AM

Q5 Please indicate your preference for length of training sessions (Sele all that apply)

ANSWER CHOICES	RESPONSES
Full day (7-8 hours)	17.86%
Half day (4 hours)	85.71%
1 hour	25.00%
Other (please specify)	10.71%
Total Respondents: 28	

#	OTHER (PLEASE SPECIFY)	DATE
1	2 hours could be the most effective	11/27/2019 1:35 AM
2	2 hours webinars	11/19/2019 6:47 AM
3	Comment: Full days are a reall challenge for orgs who already conduct a lot of unfunded activities. Training takes staff away from their work (and they may have clients booked etc) but is still very important.	11/12/2019 6:15 AM

Q6 Please indicate your location preferences for sessions. We want to maximise opportunities for all staff to participate. Please rate each choice in order of preference.
